Conditions of Sale

1. ALL BIDS TO BE PER LOT. They are executed free of charge by the Walpole Galleries and the items are bought at the lowest price permitted by competitive bids.

2. The highest bidder to be the buyer; in case of disputed bids the lot shall be resold, but the Auctioneer will use his judgment as to the good faith of all claims and his decision will be final. He may also reject any fractional or nominal bid calculated to delay or injuriously affect the sale.

3. Buyers to give their names and addresses and to make such cash payments on account as may be required, in default of which the lots purchased to be immediately resold.

4. GOODS BOUGHT TO BE REMOVED AFTER 9:30 O'CLOCK THE DAY FOLLOWING THE CLOSE OF THE SALE. If not so removed, they will be held at the risk of the purchaser and these Galleries will not be responsible if such goods are lost, stolen, damaged or destroyed. *No deliveries will be made during or immediately after the sale but all bills and goods will be ready at 9:30 o'clock on the day following the sale.*

5. TERMS CASH. If accounts are not paid when bills are rendered, these Galleries reserve the right to dispose of the goods without notice to the defaulting buyer and all costs of such re-sale will be charged to the defaulter. This condition is without prejudice to the rights of the Company to enforce the sale contract and collect the amount due without such re-sale at its own option.

6. This catalogue has been compiled by a competent cataloguer, the various lots offered are described with care and accuracy and they will be sold not subject to return.

7. The Walpole Galleries, if requested, will forward purchases at the buyer's risk and expense.

Priced copies of this catalogue at $2.00 each after the sale.

THE FIREARMS IN UNUSUALLY FINE CONDITION

Under these circumstances we have not felt it necessary to repeat this continually, (but have mainly contented ourselves in pointing out defects where they do occasionally occur), although the really fine condition of the material has called for such expression many times.

CARBINES

1. GALLAGHER PERCUSSION CARBINE. .52 Cal.
22 inch barrel, patch-box, made by Richards & Overman, Philadelphia; blued finish, very fine. 1860.

2. GALLAGHER CARBINE.
Same model as preceding, in good working order.

3. GALLAGHER METALLIC CARTRIDGE CARBINE.
Made by same firm as No. 1, but for .56 calibre rim fire cartridge. Barrel slides forward and tips up for loading. VERY FINE CONDITION, ABOUT NEW. BLUED. 1860.

4. GALLAGHER CARBINE.
As preceding, in working order, but not as good appearance as No. 3. Browned barrel.

5. STARR PERCUSSION BREECH-LOADING CARBINE.

Made by *Starr Arms Co., Yonkers, N. Y.*, 21 inch round barrel, about .52 calibre, brass butt plate and barrel band, fine condition. 1856.

6. STARR CARBINE.

As preceding, and nearly as good.

7. U. S. FLINT LOCK RIFLE.

Made by *H. & J. D. Johnson, Middletown, Conn., in* 1825, 25 inch round barrel, 2 bands with sling swivel on front band, case hardened lock, ramrod and bands brightly burnished, barrel and other trimmings browned: patch box contains wormer, screw driver and lead flap for holding flint.

A BEAUTIFUL PIECE, VERY FINE.

(Illustrated, Plate 1)

8. EVANS REPEATING CARBINE. L. 41 in.

Made by the *Evans Repeating Rifle Co., Mechanic Falls, Maine.* This is the first model and differs in many respects from the second model of 1874. 26 shots, contained in magazine in butt stock and fed forward by a spiral screw, .44 calibre center fire, using a cartridge with 28 grains of powder and 215 grain bullet.

This 1872 Model is exceedingly scarce and seldom found, is a fine specimen, with most of factory finish.

(Illustrated, Plate 1)

9. EVANS CARBINE, SECOND MODEL OF 1874. L. 41 in.

Made by Evans Co. as No. 8, 26 shots, .44 calibre center fire, using 42 grains of powder and 280 grain bullet, 22 inch round barrel. This model is a much larger and heavier piece than No. 8. In fine condition, with most of factory finish.

(Illustrated, Plate 1)

10. KRAG-JORGENSEN U. S. ARMY CARBINE. L. 41 in.

Made at the *Springfield Armory*, .30 calibre, model of 1899, very good condition.

(Illustrated, Plate 1)

11. PEABODY CARBINE.

Made by the *Providence Tool Co., Providence, R. I.*, .50 calibre rim fire, 20 inch barrel, in good working order. Date 1862.

Plate I.

12. SHARPS & HANKINS ARMY MODEL CARBINE.

Made by the *Sharps & Hankins Co., Philadelphia, Pa.* 24 inch barrel, .56 calibre rim fire. This is the scarce army model with uncased barrel and blued frame, fine condition. Date. 1859.

13. SMITH BREECH-LOADING PERCUSSION CARBINE.

Made by *Poultney & Trimble, Baltimore, Md.*, about .50 calibre, 22 inch half octagon barrel, blued and case hardened finish, about new condition.

14. GIBBS BREECH-LOADING PERCUSSION CARBINE.

Made by *William Brooks, N. Y.* 22 inch round barrel that slides forward and tips up for loading, about .50 calibre, nice clean condition.

15. JOSLYN METALLIC CARTRIDGE CARBINE.

Made by *Joslyn Fire Arms Co., Stonington, Conn.*, 1864. Butt plate marked U. S. This takes a rim fire .56 calibre cartridge.

IN NEW, SUPERB BLUED CONDITION.

16. JOSLYN CARBINE. AS PRECEDING.

In good working order, when cleaned will be a desirable specimen.

17. SPRINGFIELD PERCUSSION MUSKETOON.

Made at the *Springfield Armory in* 1853, 26 inch barrel, .69 calibre RIFLED, brass mounted, ramrod attached by chain, carrying swivel attached to long side bar, in very fine polished condition.

Note, that this is the 69 calibre WITH RIFLED BARREL, ONLY A FEW SPECIMENS KNOWN.

(Illustrated, Plate 1)

18. SPRINGFIELD BREECH-LOADING CARBINE, MODEL 1870.

.50 calibre, center fire, fine condition, about new. This model is not easily obtainable.

19. LINDNER BREECH-LOADING PERCUSSION CARBINE.

Marked *Edward Lindner's Patent, March* 29, 1859, 20 inch round barrel, .58 calibre, about new condition.

19A. SPRINGFIELD CARBINE.

Made at the *Springfield Armory*, .45-.70 calibre, Model of 1873; good order with most of factory finish.

(Illustrated, Plate 1)

20. PERRY BREECH-LOADING PERCUSSION CARBINE.

14 Made by *The H. D. Parry Patent Arms Co., at Newark, N. J.*, before the Civil War, 20 inch round barrel, .52 calibre, swinging breech actuated by the trigger guard, automatic capping tube in butt stock for placing percussion caps on nipple, browned barrel, other metal parts blued and case-hardened, fine curly walnut stock.

A VERY BEAUTIFUL PIECE IN NEW CONDITION.
(Illustrated, Plate 1)

21. BALLARD CARBINE.

6 Made by *Ball & Williams, Worcester, Mass.* 22 inch half-octagon barrel, .44 calibre rim fire, good condition.
(Illustrated, Plate 2)

22. SHARPS CARBINE.

45.00 .50-.70 metallic center fire cartridge, iron patch box; fine, new blued condition. Dated 1852.

23. MAYNARD CARBINE.

15.00 Made by the *Massachusetts Arms Co., Chicopee Falls, Mass.*, 20 inch uncased barrel, .50 calibre metallic cartridge fired by percussion cap, new condtiion. Dated 1851-59.

24. SPENCER REPEATING CARBINE.

15.00 Made by the *Spencer Repeating Arms Co., Boston, Mass.* 7 shots, carried in butt stock, .56 calibre, elevating rear sight. This specimen is the first model, made without cut-off to magazine, in fair working order.

25. SPENCER CARBINE.

7 Similar to preceding, but with Stabler's Patent cut-off to magazine, so the piece can be used either as a single shot or repeater. Elevating adjustable rear sight.

BEAUTIFUL NEW CONDITION, SELDOM FOUND AS FINE.

26. MERRILL PERCUSSION BREECH-LOADING CARBINE.

2 Made by *J. H. Merrill, Baltimore, Md.*, 20 inch round barrel, brass mounted, about .50 calibre, nice, clean condition. Dated 1860-61.

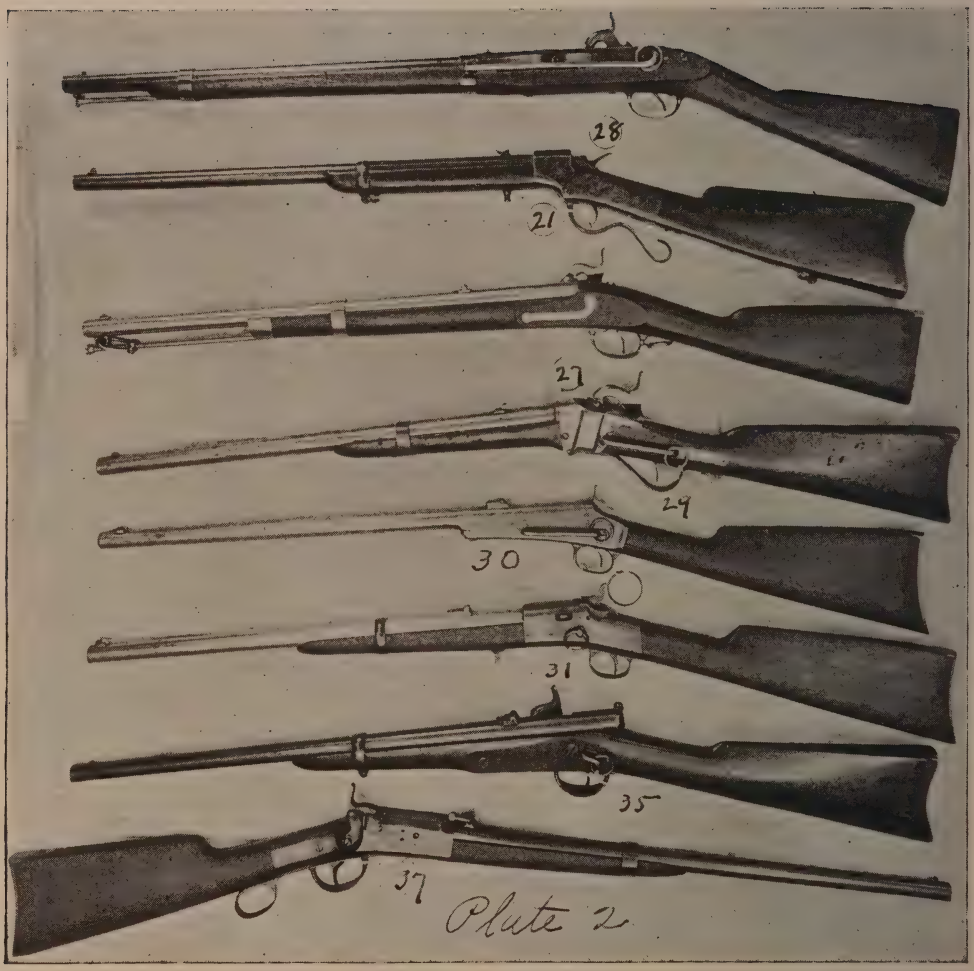

Plate 2

27. SPRINGFIELD PERCUSSION CARBINE.

Made at the *Springfield Arsenal in* 1855, 22 inch round barrel, .54 calibre, half length stock, swivel ramrod, sling ring attached to rear of trigger guard, FINE POLISHED CONDITION.

(Illustrated, Plate 2)

28. HALL BREECH-LOADING PERCUSSION CARBINE.

Made by *S. North, Middletown, Conn., in* 1847, 21 inch barrel, 52 calibre, side lever action to breech block, case hardened and brown finish, ramrod.

IN NEW CONDITION, THE FINEST ONE THAT HAS EVER PASSED THROUGH OUR HANDS.

(Illustrated, Plate 2)

29. SHARPS PERCUSSION CARBINE.

Made by the *Sharps Rifle Co., Hartford, Conn.* .52 calibre, with Maynard's tape lock and long overhanging hammer, brass butt plate and patch box, good clean order.

Note, that while Sharps percussion carbines are generally referred to as "tape lock," nearly all of them are fitted with Lawrence's Patent *primer lock,* while this specimen has the *real tape lock,* which is seldom found. Dated 1845.

(Illustrated, Plate 2)

30. LEE CARBINE.

Made by the *Lee Firearms Co., Milwaukee, Wis., under Patent of July* 27, 1862. 21½-inch barrel that swings side-ways and is locked in place by projection on hammer. .44 calibre, rim fire, uncased.

The Lee is said to be the only Civil War carbine made in the West. As far as known, there are very few in existence, and this is the second specimen to be offered at public auction.

(Illustrated, Plate 2)

31. WARNER CARBINE.

Made by *James Warner, Worcester, Mass.,* 20 inch round barrel, .50 calibre rim fire, brass breech action and butt plate, IN FINE CONDITION. 50 C R F on bbl.

(Illustrated, Plate 2)

32. WARNER CARBINE.

Same as preceding, and nearly as good but stock weak at grip.

33. BURNSIDE PERCUSSION CARBINE.

Made by the *Burnside Rifle Co., Providence, R. I.* This is the 1864 Model with jointed breech-block, blued and case-hardened finish, in VERY FINE CONDITION.

34. COSMOPOLITAN CARBINE.

Made in 1862 by *Gwyn & Campbell, Hamilton, O.* 19 inch part octagon barrel, uncased, .52 calibre; elevating rear sight; brand new condition, seldom found as fine.

35. PALMER CARBINE.

Made by *E. G. Lamson & Co., Winsdor, Vt.* 20 inch barrel, .56 calibre rim fire. The Palmer was one of the first bolt action guns to be used by the U. S. Government of very light weight. A few of them were used in the Civil War and are now very scarce.

THIS SPECIMEN IS PRACTICALLY NEW AND IS A VERY CHOICE PIECE IN EVERY RESPECT.

(Illustrated, Plate 2)

36. SHARPS PERCUSSION CARBINE.

Marked *New Model* 1863. It is in new condition and the collector who sees ordinarily the rusty, battered Sharps, will appreciate this one.

37. PERRY BREECH-LOADING PERCUSSION CARBINE.

Made by the *Perry Patent Arms Co., Newark, N. Y.* 22-inch barrel, .52 calibre.

This particular specimen is noteworthy in that it is built without the automatic re-capping device, which is usually considered to be inseparable from the Perry system arms. THIS MAKES IT ONE OF THE RAREST AND MOST SOUGHT FOR OF ARMS MADE BEFORE THE CIVIL WAR.

(Illustrated, Plate 2)

38. JENKS BREECH-LOADING CARBINE.

Made by the *Remington factory, Herkimer, N. Y.*, in 1847. .50 calibre, side swing hammer, tape lock attachment, brown barrel, brass mountings, nearly full stock. EXTRA FINE CONDITION. Practically new.

(Illustrated, Plate 3)

39. TRIPLETT & SCOTT REPEATING CARBINE.

Made by the *Meriden Mfg. Co., Meriden, Conn.* 22 inch barrel, .56 calibre rim fire, 7 shots, tubular magazine in butt stock, action is operated by rotating the barrel around a pivot mounted on side of breech. In fine, new blued condition.

(Illustrated, Plate 3)

Plate 3

40. SHARPS PERCUSSION CARBINE.

11.

Made at *Hartford, Conn.* An extra scarce model with *slanting* breech-block and long bar running from breech to first barrel band for holding swivel ring and brass patch box. Sometimes called the "*John Brown Sharps.*" Fine polished condition. 1852.

(Illustrated, Plate 3)

41. ROBERTS METALLIC CARTRIDGE CARBINE.

11.

Made under the *Roberts Patent of June* 11, 1867. 22-inch round barrel, .58 calibre center fire. As far as known, this is only the second specimen offered for sale in many years. In cleaned condition.

(Illustrated, Plate 3)

42. CONFEDERATE PERCUSSION CARBINE.

45.00

Made at *Richmond, Virginia, in* 1863, 25-inch barrel, .58 calibre. Three-quarter stock with brass tip. This arm is in fine order, by far the best specimen that has passed through our hands.

(Illustrated, Plate 3)

43. JOSLYN PERCUSSION BREECH-LOADING CARBINE.

6.50

Made by *A. H. Waters & Co., Milbury, Mass., under the Joslyn Patent of Aug.* 23, 1855. Uses a paper cartridge of about .56 calibre, brass butt plate, trigger guard and barrel band. 20-inch barrel. It is in fine order.

(Illustrated, Plate 3)

44. CONFEDERATE BREECH-LOADING PERCUSSION CARBINE.

11

Made by the *S. C. Robinson Arms Manufactory, Richmond, Virginia, in* 1862. Sometimes called the Confederate Sharps, as it is made on the Sharps principle. 21½-inch barrel, about .56 calibre, brass butt plate. This specimen is in extra good, clean condition, and rare in such fine shape.

(Illustrated, Plate 3)

45. MORSE CONFEDERATE CARBINE.

27.50

Made during the Civil War at *Atlanta, Georgia.* 20-inch barrel, .50 calibre, brass butt plate and action receiver, steel cleaning rod under the barrel. The action is somewhat similar to the Merrill.

THE MORSE IS ONE OF THE RAREST CONFEDERATE ARMS and this specimen is the best that has passed through our hands.

(Illustrated, Plate 3)

Plate 4.

46. HOTCHKISS REPEATING CARBINE.

Made by the *Winchester Repeating Arms Co.*, for the Government, marked *U. S. Eagle Head and V. P.* .45-.70 calibre. Model of 1882. A bolt action arm, with magazine in butt stock. Made under the Hotchkiss Patents. Blued finish, almost factory new.

(Illustrated, Plate 4)

47. BALL REPEATING CARBINE.

Made by the *E. G. Lamson Co., Windsor, Vermont. Albert Ball's Patent of* 1863 *and* 1864. 21-inch barrel, .56 calibre rim fire. Three-quarter stock and cleaning rod. Blue and case hardened finish. VERY FINE.

(Illustrated, Plate 4)

48. WHITNEY CARBINE.

Made at the *Whitneyville Armory under the Laidley Patent.* 20-inch barrel, .45-.70 calibre.

Externally, this arm is somewhat similar to the Remington. Fine condition, nearly new and the only specimen offered for sale in many years, AS THEY ARE VERY RARE.

(Illustrated, Plate 4)

49. JOSLYN BREECH-LOADING CARBINE.

Made by the *Joslyn Fire Arms Co., Stonington, Conn.*, for metallic cartridges, under the Joslyn Patents of 1861 and 1862. This pattern differs considerably from the later Model of 1864. Brass butt plate, trigger guard and barrel band. A very scarce specimen in fine blued condition.

(Illustrated, Plate 4)

50. COLT REVOLVING PERCUSSION CARBINE.

Made by *Colt at Hartford, Conn.* 21-inch barrel, 5 shots, .54 calibre, brass butt plates and trigger guard. IN EXTRA FINE, NEARLY NEW BLUED CONDITION.

(Illustrated, Plate 4)

51. JENKS PERCUSSION BREECH-LOADING NAVY CARBINE.

Made by *N. P. Ames, Springfield, Mass., in* 1846. Side swinging hammer, regular cap lock instead of tape lock, brass mountings, browned barrel, nearly full stock, fine condition.

52. WARD-BURTON CARBINE.

Made at *the Springfield Armory in* 1871. 22-inch barrel, .50-.70 calibre bolt action, elevating rear sight. A very scarce carbine in fine order.

(Illustrated, Plate 4)

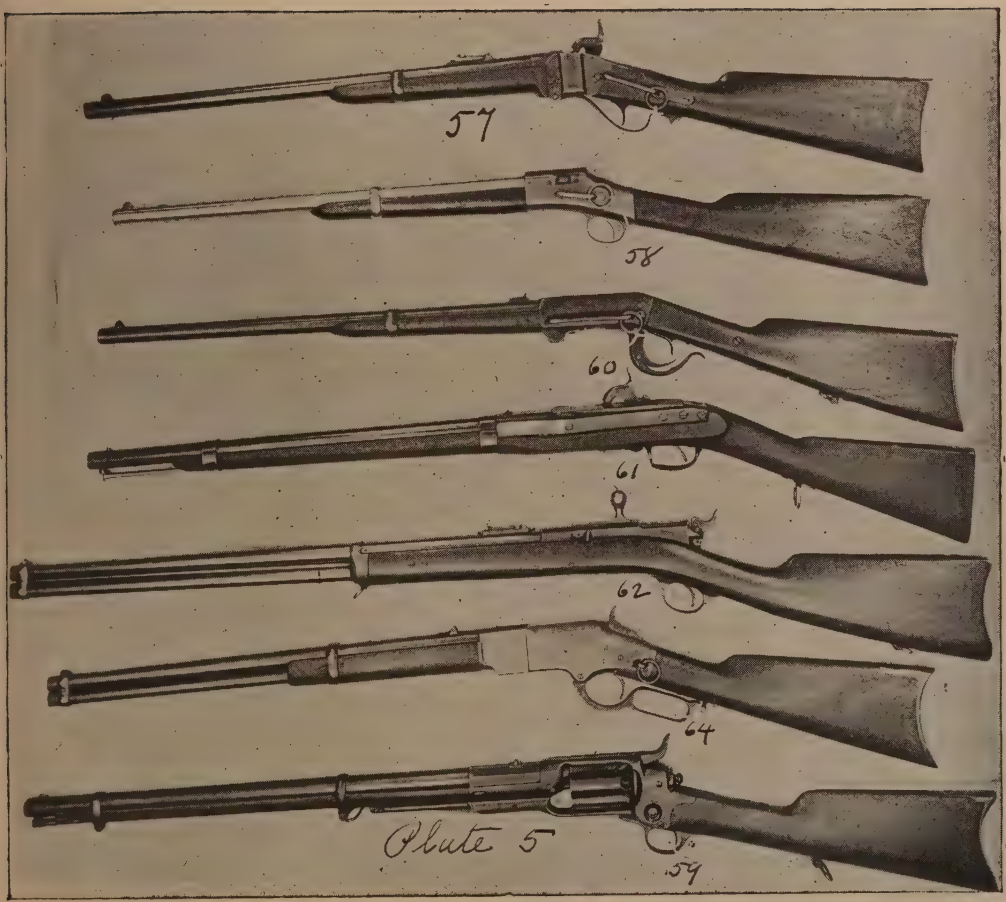

Plate 5

53. REMINGTON CARBINE.

Made at the *Remington Armory, Ilion, N. Y., for the U. S. Army, Civil War period.* Known as the "*Split-Breech*" type as the hammer works in a recess of the breech-block.

A RARE GUN, nearly new blued condition.
(Illustrated, Plate 4)

54. SHARPS & HANKINS NAVY CARBINE.

24-inch barrel that slides forward on the frame for loading. Barrel is covered with leather for Navy use, in which respect it differs from the Army model. Case hardened, breech action, fine order. Dated 1859.

55. WINCHESTER REPEATING CARBINE.

Made by *the Winchester Co., New Haven, Conn. Model of* 1876, also called the *Centennial Model.* .45 calibre, 75 grains of powder, 375 grain bullet. Magazine is under the barrel and is covered with a full-length fore-stock. A box of cartridges accompanies the gun.

As far as known, this is the first specimen offered for sale in many years, in good working order.
(Illustrated, Plate 4)

56. REMINGTON CARBINE.

Made at the *Remington Works, Ilion, N. Y.* 22-inch barrel, .50 calibre center fire. In beautiful condition and almost factory new.

57. SHARPS METALLIC CARTRIDGE CARBINE. .57-.70 calibre.

The mechanism differs from the regular models in that the firing pin is near center of breech block and extractor is in shape of a semi-circle in the bottom of the barrel chamber. The only one of the kind that has passed through our sales. In new blued condition. Date 1862.

(Illustrated, Plate 5)

58. GREENE CARBINE.

Made by the *Green Rifle Works, Worcester, Mass., under Patent of* 1864. 20-inch round barrel, .56 calibre rim fire, brass butt plate, receiver and breech-block. The mechanism is quite similar to that in the Warner carbine. This gun is clean and bright.

(Illustrated, Plate 5)

59. COLT PERCUSSION REVOLVING CARBINE.

Made at *Hartford.* 5 shots, fluted cylinder, 24-inch barrel, wood fore-stock reaching nearly full length of barrel, brass tip at forward end and held in place by 2 bands. In nice working order, with ramrod.

THIS IS ONE OF THE VERY SCARCEST REVOLVING ARMS MADE BY COLT, MUCH RARER EVEN THAN THE PATERSON-COLT.

(Illustrated, Plate 5)

60. BURNSIDE EARLY MODEL BREECH-LOADING PERCUSSION CARBINE.

Made by the *Burnside Rifle Co., Providence, R. I.* 21-inch barrel, about .56 calibre. This model has the one-piece unjointed breech block instead of the two-piece action of the later models.

Very few collections contain a specimen of this carbine. Fine condition.

(Illustrated, Plate 5)

61. HALL BREECH LOADING PERCUSSION CARBINE.

Made by *S. North, Middletown, Conn., in* 1840. 21-inch barrel, .54 calibre. Has the *"Fish Tail"* lever action on under side of stock in front of trigger guard. Brown and blued finish, in new condition, slightly marred by handling.

(Illustrated, Plate 5)

62. REMINGTON-KEENE REPEATING CARBINE.

Made by *Remington & Sons, Ilion, N. Y.* 24-inch round barrel, .45-.70 caliber, center fire, bolt action, tubular magazine under barrel; fine blued condition.

(Illustrated, Plate 5)

63. U. S. SPRINGFIELD CARBINE.

Marked *Model of* 1884, .45-.70 calibre, good condition, most of factory blued finish.

64. HENRY REPEATING CARBINE. .44 calibre, rim fire.

This is a very scarce model that bridges over the gap between the Civil War Henry and the later Winchester Model of 1866. It has the general characteristics of the latter arm, but differs as follows: It has different butt plate and rear sight; hammer has only one cocking notch; barrel is stamped with Patent dates, but is not marked with the Winchester Co.'s name (so was made before the existence of that company). In good order with bright yellow brass frame.

(Illustrated, Plate 5)

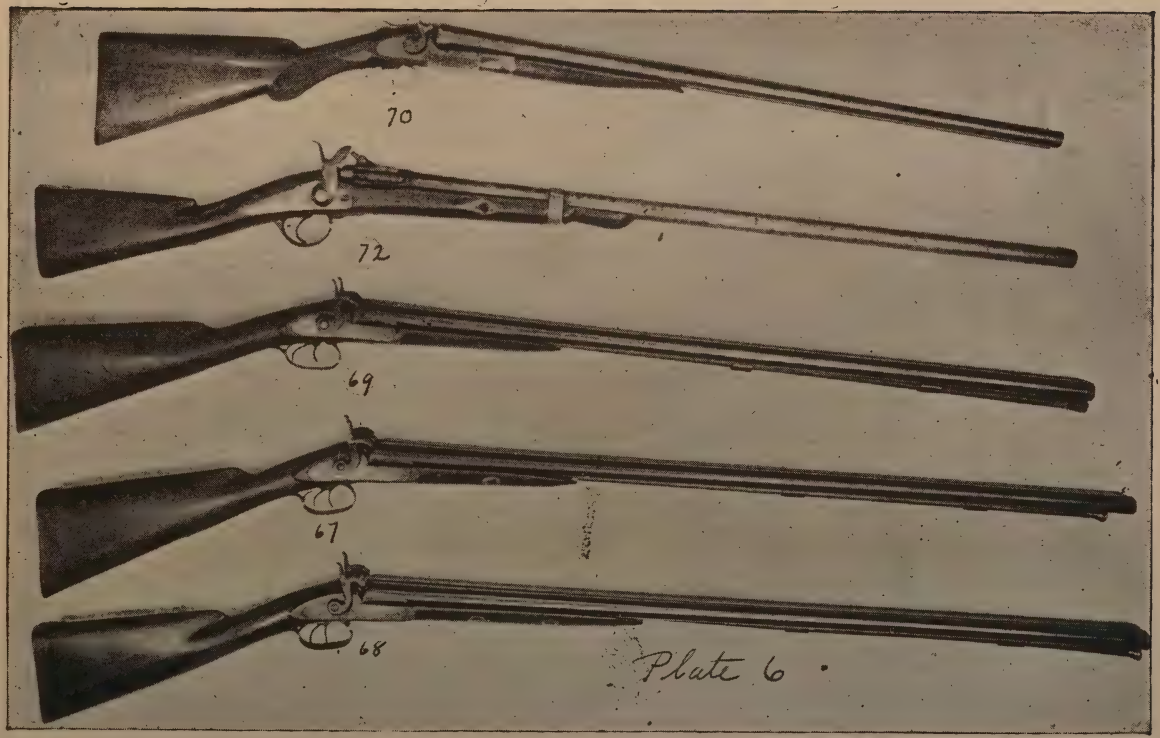

Plate 6.

SHOT GUNS

65. COLT REVOLVING SHOT GUN.

24 5 shots, side hammer, fluted cylinder, 30-inch barrel, good working order, browned finish, ramrod, and curly walnut stock.

(Illustrated, Plate 10, Page 26)

66. AUCTION SALE CATALOGUES OF FIREARMS AND EDGED WEAPONS. SCHOTT; STEINER; AUSTIN (ANCIENT) REID (PRE-HISTORIC), ETC.

16 Thirty-nine auction sales catalogues of firearms and weapons from 1912 to the present time, including the large sales that have taken place during that period. The many thousands of illustrations and descriptions in these books make them invaluable to collectors as works of reference, sold as a lot. Some priced. (39)

67. MUZZLE-LOADING DOUBLE-BARREL SHOT GUN.

15.00 Made by *Richards, Lond.* Twist barrels, 34 inches long, 12 gauge, in fine condition, but one lock needs repairs.

(Illustrated, Plate 6)

68. DOUBLE-BARREL MUZZLE-LOADING SHOT GUN.

25.00 Made by *R. Chaplain, London.* Twist barrels, 34½ inches long, 12 gauge, chiselled lock, in fine condition, with checkered grip.

(Illustrated, Plate 6)

69. ENGLISH DOUBLE-BARREL SHOT GUN, MUZZLE LOADING.

1 Made by *Henry Sears, London.* 33-inch twist barrels, 12 gauge, fair condition, with ramrod.

(Illustrated, Plate 6)

70. BREECH-LOADING DOUBLE-BARREL SHOT GUN.

7.50 Made by *L. C. Smith.* 27½-inch brown twist barrels; checkered pistol grip; 12 gauge; fair condition.

(Illustrated, Plate 6)

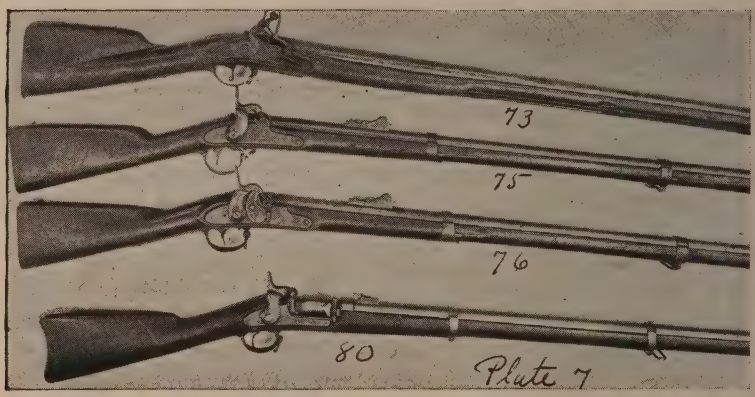
71. ROPER REPEATING SHOT GUN.

6 Made by *Roper Repeating Rifle Co., Amherst, Mass.* 12 gauge, 4 shots. Butt stock missing and spring needed in action, otherwise complete and well worth restoring.

72. ZULU SINGLE-BARREL SHOT GUN.

31-inch barrel, 12 gauge for paper or brass shells, center fire. An alteration from a French Tabiaterre military rifle to a shot gun and was a popular sporting gun of 40 or 50 years ago, BUT IS NOW VERY SELDOM SEEN. Mark: *M'fre Ip'le.*

(Illustrated, Plate 6)



MUSKETS

73. FLINT-LOCK MUSKET, about .75 calibre. L. 60 ins.

Barrel 44 inches long, brass trigger guard and butt plate, barrel fastened to stock with pins, huge comb on stock, very fair condition for such an old piece.

(Illustrated, Plate 7)

74. HALL BREECH-LOADING PERCUSSION RIFLE MUSKET.

Made at *Harpers Ferry in* 1834. 30-inch barrel, .52 calibre. Ramrod missing, otherwise good.

75. PERCUSSION MUSKET. Entire L. 57 in.

Lock plate marked *Harpers Ferry*, 1854. .69 calibre *rifled*. Used in Civil War by J. W. Edenburn, 21st Illinois Infantry. See No. 84 for a hunting riflle owned by the same man.

(Illustrated, Plate 7)

76. U. S. PERCUSSION MUSKET. L. 68 in.

Altered from the 1822 Model flintlock to percussion in 1856 at the Remington Armory by rifling barrel, cutting off rear end of barrel and screwing on a new breech and adding a Maynard tape primer lock. The hinged cover over tape roll has button for opening. This piece is in good condition.

Note, THAT NOS. 76 AND 75 ARE OF .69 CALIBRE WITH RIFLED BARRELS, CONSIDERED VERY DESIRABLE BY COLLECTORS.

(Illustrated, Plate 7)

77. U. S. PERCUSSION MUSKET. MODEL OF 1842. L. 58 in.

Lock plate marked *Springfield* 1851. .69 CALIBRE, smooth bore, ramrod, good condition.

78. U. S. MUSKET FLINT-LOCK. MODEL OF 1822. L. 58 ins.

Made at *Harpers Ferry in* 1834, altered to percussion by plugging the touch hole and screwing a nipple in top of barrel. Government First Alteration. A Mexican and Civil War piece.

79. U. S. NAVY SPRINGFIELD. L. 44 ins.

Made at the *Springfield Armory in* 1870 *on the Remington System.* 28-inch barrel. Thumb piece of breech-block broken off and needs cleaning.

80. E. ROBINSON, NEW YORK. L. 55 ins.

1863 percussion musket converted to .58 calibre center fire metallic cartridge with side-swinging breech block, usually called the "*Bridesburgh Alteration.*" THIS IS A VERY FINE SPECIMEN.

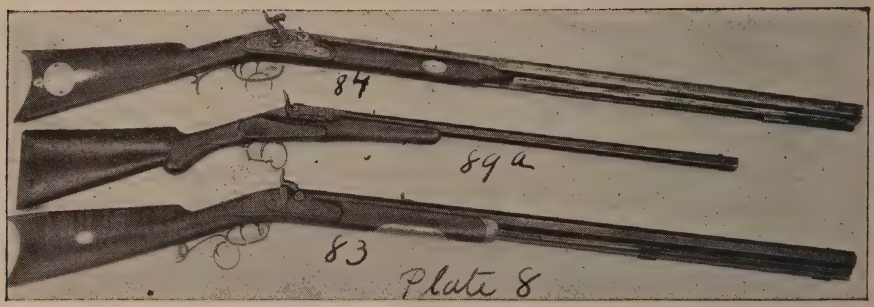
(Illustrated, Plate 7)

81. MILITARY RIFLE. L. 50 ins.

Made at the *Remington Armory* for some foreign government, has crowns stamped on barrel bands. .50 calibre, center fire, 35-inch barrel.

82. SWISS VETTERLI MILITARY REPEATING RIFLE. L. 51 in.

Bolt action, .41 calibre rim fire, tubular magazine under barrel, 33-inch barrel, good appearance.



SPORTING RIFLES

83. MUZZLE LOADING PERCUSSION RIFLE. L. 47 ins.
Made at the *Pennsylvania Rifle Works*, about .38 calibre, 30-inch very heavy octagon barrel, double set triggers, fine curly maple stock with cheek piece and inset ornaments.
This rifle was used for many years on the Great Plains west of the Missouri River, is in good condition.
